Above is shown a group of the Marion Rapid Transit buses as they unload and take on passengers at the transfer on Center street near the courthouse. The buses have shown a remarkable growth here in the last two years since this means of transportation replaces the former trolley cars.

## Started Nearly Two Years Ago, Lines Show Growth

Ray and Robert Maag Head Concern That Provides Transportation for Marionites; Dependability Is Feature of Service; Cars Available for Special Trips.

About two years ago there was inaugurated a bus service designed to replace Marion's outgrown street car system. How well it has succeeded is not realized by the average citizen without a little thought and consideration.

When you plan to meet a train, go to work or keep an engagement with a friend you need not worry about being late through failure of our transportation system.

Maag Are Planners

This happy condition is due, largely, to two local young men who were not only planners in bus transportation but have caused it to become an accepted condition of present day life in Marion.

Marion Rapid Transit, Inc., was conceived and is managed by Ray Maag, president, and Robert Maag, vice president, associated with L. J. Hill, also of this city, secretary and S. L. Lips, of Cincinnati, treasurer of the company.

In their offices at 421 North Main street, where also are the garage and work shop, are found some enviable records.

On the various city lines 12 large buses are used which have traveled an average of about \$8,000 miles each, making in all almost 1,000,000 miles without a serious breakdown or accident.

This enviable record was not made possible by "trusting to luck," but by constant care. Each bus is checked daily and every 4,000 miles has a complete inspection which includes removal of wheels, washing bearings and grinding of valves. The total mechanical trouble so far experienced consists of one broken valve which caused a broken piston, and two broken piston rods.

Drivers Experienced

Another safety factor which cannot be lightly considered is the fact that seven of the original drivers are still employed in the same capacity. It is obvious that they are dependable in every respect to attain these records.

There have been some changes in the routes and schedules, but each change that is made is for the purpose of greater service to more people.

In addition to the city service the Transit company has the franchise for a bus line from Marion to Toledo with a connecting line between Carey and Findlay. This entails the purchase of two additional buses which have the same chassis as the city

buses, but with bodies designed for greater comfort for longer rides.

Another growing branch of their transportation service is in supplying buses for special trips and occasions. At present they are negotiating for a special trip of several thousand miles.

Real Estate Dealers  
To Discuss Finances

Protecting the safety of securities, that thought, which ever since the stock market debacle has been uppermost in the minds of all investing folk from the purchaser of a \$100 unit to the company which handles investment funds on a gigantic scale, will be discussed as applied to real estate securities before the members of the mortgage and finance division of the National Association of Real Estate Boards at the association's twenty-third annual convention to be held in Toronto, Canada, July 9, 10 and 11.

"How To Safeguard Real Estate Securities Through Proper Planning and Efficient Management" is the subject on which Walter S. Schmidt of Cincinnati will address the mortgage brokers. Mr. Schmidt, who is a member of the National association's board of directors, will tell what the realtor specializing in the mortgage and finance fields must do to operate his business with assurance of safety and protection under present day conditions.

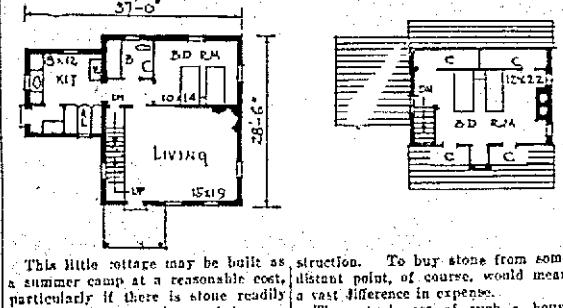

### SIX PERMITS ISSUED

Six permits to erect buildings expected to cost \$1,470 were issued this week by City Clerk Sylvester Larkin. His records show, Permit for a \$1,000 dwelling was the largest single permit, while a \$70 garage was the smallest.

### 18-Foot Baby Whale To Be Exhibited Here

Catalina Whalers Exhibiting Co. Monday and Tuesday will display an embalmed "baby whale" next to the Yellow Tail Co. offices on East Center street. Lectures on the life and habits of whales and other deep sea life will be explained when the whale goes on exhibition. Alive, the huge animal weighed three and a half tons, and was 18 feet long.

### OLD STONE SUITABLE FOR COTTAGE

This little cottage may be built as a summer camp at a reasonable cost, distant point of course, would mean a vast difference in expense.

The actual cost of such a house naturally will vary considerably, depending on the material used and the cost of stone, if stone is used. Any estimate should take these factors into consideration.

### MARKET ACTIVE

Real Estate Movement Shows Increase in May Over April.

An increase of real estate market activity for May over April is reported by the National Association of Real Estate Boards following the compilation of its regular monthly index figure on real estate activity.

The figure 73 indicating real estate market activity for April showed an increase of 27 over the figure for March, and the figure 73.5, indicating May activity, shows an increase of 0.5, making a total increase of more than three points during the past two months.

The index is based upon official reports of the total number of deeds recorded in 61 typical cities throughout the country. Real estate activity for the year 1920 is taken as the base year in compiling the monthly figure.

KOHLER OF KOHLER

New! A 3-well sink

You'll be enthusiastic over this brand-new, extra-efficient Kohler sink. It has two regular sink compartments—one for washing, one for rinsing. Both have the Kohler Duostrainer (see small picture). They hold water without using a pan, and catch debris in a removable strainer cup.

On the left is a laundry tub, its cover serving as a drainboard. And notice the two swinging mixing faucet; the rinsing faucet; the containers underneath for garbage and cleaning materials.

There are many new Kohler sinks—unmatched in efficiency. Beautiful in colored enamel or in white. Some actually wash dishes or clothes by electricity. Ask your plumber about it.

# 400th Anniversary of Augsburg Confession To Be Observed

## Marion Lutherans Plan Celebration at City Park

Number of Out-of-Town Speakers Will Address Assembly at Sunday Services; Special Music on Program; Picnic at Noon To Be Feature.

Marion's Sunday church services are overshadowed by the great festival which the Lutheran church is holding in celebration of the four hundredth anniversary of the writing of the Augsburg Confession. This great document of the church was signed in the year 1530 in the presence of the great Imperial convention which had met expressly for the purpose of either destroying the members of the Lutheran faith or forcing them to renounce their allegiance to their chosen religion.

### Scripture Confession

Instead of renouncing their faith as their persecutors had expected them to do, the members of the church prepared a confession which has since become known as the Augsburg Confession and read it in the presence of the assembly.

The reading of the confession was the true beginning of the Lutheran church. It was almost the beginning of all Protestantism as the majority of other Evangelical confessions are based on the Augsburg Confession. For this reason the Lutheran church is inviting the rest of the public to share in the celebration services in Garfield park Sunday.

## Prayer Is Sustaining

### A SERMONETTE

"And it came to pass that as He was praying in a certain place, when He ceased, one of His disciples said unto Him, teach us to pray, as John also taught his disciples." Luke 11:1.

PHATEL is born of a real thirst for God. Jesus in the Sermon on the Mount said, "Blessed are they that hunger and thirst after righteousness for they shall be filled." Our physical body is sustained by partaking of food, the spiritual body is nourished and fed on the righteousness and holiness of God. The soul craves and longs for communion with the God. If there is no longing for righteousness and God, then it is manifest that the soul is dead in sin, and this very fact should warn us.

### 1. We must discover God.

The whole of life is a discovery of new and wonderful things about God; His plan for our lives and the very purposes of God in His relation to the whole human family. There is no other means through which we are brought into such relation to discover the reality of God, as in prayer. Every great leader in the Christian church has possessed this spiritual dynamic which is born of prayer that sets us clear in our thinking about God. In the 28 chapters of the Acts of the Apostles 20 times we see an individual, a group, the church in prayer and something happens. The Holy Ghost falls upon them, the lame are made to walk, prison doors are open, souls are saved and the idolatrous books are burned. These things happened all because these folks had discovered God as a power to get things accomplished. Our God is the same today as He has ever been but we have lost the art prayer to discover God and what He is able to do for us.

### 2. Practice the Presence of God.

The best preventive against sin is to practice the presence of God. "Choose that place to sin where God is not." That thought impresses me, for there is no place where God is not. How wonderful to think about God, His presence, His power, His wisdom and His love.

When you meet the hard places in life, when you are rarely tempted and tried, just think of that, how willing He is to help you and how near He is to you. This will help you to count the cost of sin, to figure the ultimate end of sin in the world and the world to come. Thus you will find the real secret of victory in every test of life is to practice the presence of God. God is closer than hands and feet. He is nearer to us than breathing and will help you always. Practice the presence of God every day in prayer.

He, who, from zone to zone,  
Gilds through the sky the certain flight  
In the long way that I must tread alone  
Will lead my steps aright.
